AMREL Flexpedient® Technology

One computer. Unlimited applications.

Wireless

D.A.Q.

Fiber Optic

COFDM

Available Application Modules

1. Free wave
2. Ibis tek
3. Ubiquiti
4. Cobham/DTC COFDM
5. Area RAE Gas Sensors
6. And others

VISIT: **www.Flexpedient.com**
to watch a video on making any application interoperable!

CHANGE THE MODULE. CHANGE THE MISSION.

Flexpedient® Technology allows one computer to be configured into an infinite number of interoperable solutions. Just swap the plug–and–play Application Module out of AMREL's patent-pending device bay, change the hard drive, and you have an entirely new solution!

ELEGANT, ONE-BOX SOLUTIONS.

In just minutes, Flexpedient® Technology enables non-engineers to create one–box solutions in the field. Now, you can reduce your footprint, eliminate peripherals, and prove novel technology in proprietary modules on mature ROCKY computer platforms.
